Dar-us-Salam, Hyderabad

## **DECCAN TECH-FEST-2022**

### **Summary on Model-Making event**

Model making is an activity that involves conceptual as well as theoretical knowledge to make learning and retention more profound and strong among budding engineers.

This competition was conducted the Department of SHM in order to engage students to show their creativity and also to give wings to their imagination and thoughts. The competition was all about the enhancement of the students' technical skills.

A total of 103 students registered for this model making event. The students showcased static and working models that can be used for learning various scientific and technical concepts, functions, and mechanisms of various systems in the technical fest. The objective to organize this event was not only to inculcate a scientific attitude but also research-mindedness.

The theme of the model making event was 'Sustainability, Society-beneficial and Environment Friendly concepts.

Dr. Abdul Basheer, Mr. Parwaz Ahmed, Mr. Mohammed Faiz Siddiqui and Mr. Hashmath Ali Khan were the judges for this event

Each and every student did a commendable job and raised the competition to the highest levels of innovation. Winners were declared by the judges based on original ideas, innovativeness, creativity and effectiveness of the theme.
